Subject: SJRWP BERA- corrected tables

Dear Gary-

Integral identified a couple of errors in Tables 4-12 and 4-13 of the draft final Baseline Ecological Risk Assessment (BERA). Errors were found in the values for the area use factor (AUF) for white-faced ibis and for the home range of bald eagle in Table 4-12. In Table 4-13, information for the brown pelican was inadvertently left off the table, and is now included.

We have corrected the errors, and the corrected tables are attached. The corrected tables are also included on the wiki page with the draft final and the PDF of the whole document has been updated with the corrections.

Finally, the corrected tables have been printed and shipped for delivery tomorrow.

These corrections are to the BERA submitted pursuant to CERCLA Docket No. 06-03-10.

I apologize for the errors.

Jennifer
